## Western Berks Shepherding

Recently, Western Berks Shepherding has had a big increase in new clients using our transportation services. Because of this, we are in need of new adult volunteers to drive our clients to local medical appointments. Our volunteers choose when and where they wish to drive as well as how often. (Volunteers are never assigned a transport.....they are always in control of which transports they wish to do.) In addition, our volunteers are only asked to provide transportation (they are not asked to provide any kind of personal or medical care).
